Target version:		Affected version:	
Resolution:	No feedback		
Description I tried this on a clean installation on the update window, it is possible to assign the bug to the Redmine admin account even if he is not a user that is configured as part of project's users. On the bug list, in the right-click menu, the admin account is not part of the assignee list

Author should be displayed as assignable on a single issue right click menu (#7136).

Can't reproduce ?

- *Priority changed from High to Normal*

- *Affected version (unused) set to devel*

I can reproduce on trunk, I don't know the consequences though. Any idea ? I don't think it's "high priority" anyway...

#3 - 2011-06-13 13:51 - Avner S

consequences are simple, a bug will be assigned to no one that i suppose to handle it and may get lost in the process

#4 - 2011-06-13 14:37 - Etienne Massip

Any plugins (see [SubmittingBugs](#) for details we need) ?

#5 - 2011-06-13 15:11 - Avner S

as i said, this works on a clean install right out of the box

#6 - 2011-06-13 18:06 - Jean-Baptiste Barth

- *Target version set to Candidate for next minor release*

So it has to be fixed :)

#7 - 2011-07-23 21:54 - Jean-Philippe Lang

Can't reproduce. BUT note that an issue can always be assigned to its author (even if he is not a project member). So for example, say I'm an admin, I create an issue in a project I do not belong to => I see my name in the assignee drop down.

In your bug, who did create the issue?
