Description
On the list of issues users should be able to add/remove themselves to/from watchers list (batch)

Related issues:
Duplicated by Redmine - Defect # 7977: 'Watch' multiple issues from bulk edit... Closed 2011-03-23
Duplicated by Redmine - Feature # 4051: Multiple watchers assigned from issue... Closed 2009-10-19

Associated revisions
Revision 11339 - 2013-02-10 11:31 - Jean-Philippe Lang
Bulk watch/unwatch issues from the context menu (#7159).

History
#1 - 2010-12-22 22:06 - Jean-Philippe Lang
- Subject changed from Add item Watch/Unwatch to right-button-click menu to Bulk watch/unwatch issues from the context menu

Renamed since watch/unwatch link is already available in the context menu for watching/unwatching a single issue.

#2 - 2012-01-09 16:45 - Oli Kessler
+1

Unwatching multiple closed issues is tedious and they quickly fill up the "Watched issues" block on "My page"

#3 - 2012-02-23 19:12 - Brenton Brown
+1

Redmine has become unusable in our organization, since we had always permitted unfettered "Add Watcher" access. Now we are all getting 75 emails a day on ticket updates we don't want. We need desperately to UNWATCH.

#4 - 2012-08-16 09:51 - Stefaan Ellebaut
+1!

#5 - 2012-12-19 01:18 - Anonymous
Feature added in r11339.

- Status changed from New to Closed
- Assignee set to Jean-Philippe Lang
- Target version set to 2.3.0
- Resolution set to Fixed
