

Redmine - Defect #7197

Tracker reset to default when replying to an issue email

2010-12-29 12:28 - Felix Schäfer

Status:	Closed	Start date:	2010-12-29
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Email receiving	Estimated time:	0.00 hour
Target version:	1.1.0	Affected version:	
Resolution:	Fixed		
Description			
When replying to an issue email with no explicit tracker set either in the mail body or in the CLI defaults, replying to an issue per mail reverts the tracker of the issue to the "default" tracker (first tracker in list). This is caused by source:/trunk/app/models/mail_handler.rb#L260 and was introduced in r4394 .
