Description

Hi,

There is no delete button in files list. See attachment!
I've attached my small patch also. It is really small and i didn't want to open a new patch in patches tracker only
for this..

Regards,
Balazs

With Firefox, I could see the trash icon.
Anyway, thanks for you feedback. I fixed this problem (with the
trash icon instead of the 'Delete' label) in rev 580.
