Redmine - Defect #7219

Issue changed together with subtask

2011-01-03 13:06 - Daniel Tlach

Status:	New	**Start date:**	2011-01-03
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Issues	**Estimated time:**	0.00 hour
Target version:			
Resolution:		**Affected version:**	1.0.5

Description

Possible bug in closing subtask through commit.

git commit -m "Fixed the iterator issue. closes #179"

Subtask was marked as done and closed, which is right. However, the main issue was changed too, marked as 100% done (which is not) and estimated time was changed to 1 hour (from 30).

I've figured that marking it as 100% done might be connected to the subtasks (when subtasks are present, they change the progress, not the issue itself). Tho, the estimated time change is a bug, since that should not be modified by any automation.
