<td>Fixed</td>
</tr>
</tbody>
</table>

Description
Is there any plans for adding custom fields-functionality for documents? There are currently only on Document Categories and adding it to documents would be great as it would act as valuable metadata regarding versions, moderations etc.

I see there are several issues about adding support for tags (#2897) for this and that, but none for documents. Just remove this if I'm mistaken.

NB! The "SubmittingBugs"-link at the top-notice in "New issue" is defect.

Associated revisions
Revision 14004 - 2015-02-14 11:44 - Jean-Philippe Lang
Adds custom fields to documents (#7249).

History
#1 - 2011-03-23 09:18 - Toshi MARUYAMA
- Category set to Custom fields

#2 - 2015-02-14 11:45 - Jean-Philippe Lang
- Category changed from Custom fields to Documents
- Status changed from New to Closed
- Assignee set to Jean-Philippe Lang
- Target version set to 3.0.0
- Resolution set to Fixed

Custom fields for documents added in r14004.
