Redmine - Feature #7276

Easily move Wiki site between projects

2011-01-11 00:49 - Terence Mill

Status:	Closed		**Start date:**	2011-01-11
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate			

Description
Mainly for admins and Managers Warn and list links to sites in old project before move is done. Nice2have: Convert these links so sites can be found (macro or full sub uri path)

Is duplicate of Redmine - Feature #5450: Move wiki page to other project	**Closed**	**2010-05-05**

History

#1 - 2011-01-13 14:24 - James Rowe

+1

- Use case
    1. we create projects that handle small off-shoots of a main project, decide we want to merge issues and wiki back in with the parent project.
    2. Create a wiki page by accident under a different project. Want to move it.

#2 - 2011-01-13 15:07 - Terence Mill

Enhancement: Warning shall also show all sites als clickable (for direct editing) where the site to be moved is refrenced.
