Description				
When a parent is	sue is cloned/duplicated, the subtasks/children	n are not processed.		
This should be m	odified, to allow either clone a parent alone, o	r with all children, leading	to a deep clone	e of the entire issue tree.
-	ue can only be cloned by itself. If, for whateve ue by hand and re-create the parent-child rela	-		n entire issue tree, you'll have
to copy every issi	,
