Related to Redmine - Feature #5344: Update to latest CodeRay 0.9.x		Closed	2010-04-19

History

#1 - 2011-01-14 17:44 - Etienne Massip

0.9.7 release is dedicated to fix this bug.

Supersedes [#5344](#) and related to [#4264](#).

#2 - 2011-01-15 14:11 - Etienne Massip

[0.9.7](#) is out and is a recommended security upgrade !

#3 - 2011-01-22 15:01 - Kornelius Kalnbach

Is this solved now, with the update to 0.9.7?

#4 - 2011-01-22 15:09 - Jean-Philippe Lang

- Assignee changed from Jean-Philippe Lang to Etienne Massip

Etienne, can you confirm the fix?

#5 - 2011-01-24 09:26 - Etienne Massip

Should be.

But, err, I just tried to parse <http://www.redmine.org/issues/7265#note-2> JavaScript excerpt on <http://coderay.rubychan.de> and it looks like I killed it a second time ?!

I presume that <http://coderay.rubychan.de> is up to date ?!

I'll make a try on redmine's trunk.

#6 - 2011-01-24 09:41 - Etienne Massip

Ok, i confirm that the bug is gone on redmine's trunk with 0.9.7, so it's probably a <http://coderay.rubychan.de> side problem.

Waiting for an answer from Kornelius to be absolutely sure.

#7 - 2011-01-24 11:10 - Etienne Massip

Response from Kornelius :

```
Found the problem: I was using the CodeRay 1.0 development branch, which still has the bug. It overwrote my manual fix when I deployed it after the 0.9.7 release :P
```

So : yes, this issue is fixed by Redmine's trunk !

#8 - 2011-01-24 18:49 - Jean-Philippe Lang

- *Status changed from New to Resolved*
- *Target version set to 1.1.1*
- *Resolution set to Fixed*

Thanks, I'll merge it into 1.1-stable since it can be considered as a severe issue.

#9 - 2011-01-30 07:23 - Jean-Philippe Lang

- *Status changed from Resolved to Closed*

Merged in 1.1-stable in [r4774](#).
