| **Target version:** | | | | |
| **Resolution:** | Wont fix | | | |

| Description |
|---|
| is there a possiblity to define some kind of special ticket, say, overhead, which may be used as overhead estimated hours container? then, when there would be some 'overhead' (not planned) project tasks discovered, these may automatically decrement estimated hours from this special issue and, this way, use the estimated time for themselves, without changing project time budget |

## History

**#1 - 2008-06-14 17:16 - Jean-Philippe Lang**

*- Status changed from New to Closed*

*- Resolution set to Wont fix*

The simpliest way of doing this to create a ticket named Overhead :-)
