

Redmine - Defect #7367

Receiving pop3 email should not output debug messages

2011-01-19 09:58 - mcfedr mcfedr

Status: Closed	Start date: 2011-01-19
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version: 1.2.0	Affected version:
Resolution: Fixed	
Description	
<p>the pop3 email checker always produces output, even with the --silent flag sent to rake this line is in my crontab rake -f /var/www/redmine/Rakefile --silent redmine:email:receive_pop3 RAILS_ENV="production" host=*** username=*** password=*** delete_unprocessed=1</p> <p>and it sends an email every 5 mins telling me that no email was processed</p> <p>running ruby 1.8.7 rails 2.3.5 on ubuntu 10.04</p>

History

#1 - 2011-01-19 14:36 - andra lungu

Try adding ">/dev/null 2>&1" at the end of the line.
For further info google for cron disable email notifications.

#2 - 2011-01-19 14:43 - mcfedr mcfedr

Preferably the regular messages would not be printed on stdout, and so silent, but error messages would be on stderr which i assume is still printed,
>/dev/null 2>&1 will stop me getting notifications of errors

#3 - 2011-01-22 13:11 - Jean-Philippe Lang

- Subject changed from *Receiving pop3 email* to *Receiving pop3 email should not output debug messages*
- Status changed from *New* to *Closed*
- Target version set to *1.2.0*
- Resolution set to *Fixed*

This should be fixed by r4737. Debug messages are now logged instead of sent to the standard output.
