Redmine - Defect #7385

Error when viewing an issue which was related to a deleted subtask

2011-01-20 11:06 - Ngewi Fet

Status: Closed Start date: 2011-01-20
Priority: Normal
Assignee: Jean-Philippe Lang Due date: % Done: 0%
Category: Issues Estimated time: 0.00 hour
Target version: 1.1.1
Resolution: Fixed
Affected version: 1.1.0

Description

I get this bug against the current Redmine version 1.1.0.stable.4732
This bug is reproducible with the following steps:

1. Create an issue A
2. Create issue B and make it a subtask of A
3. Create issue C and add B as a related issue
4. Delete A (Redmine normally also deletes subtasks)
5. Now try to view issue C and you get Redmine internal error.

Expected:
You should be able to view the issue with no problems

Actual Result:
You get an internal Error 500

Note:

- Issue C is still accessible through the Edit action.
- Deleting an issue with a simple issue relation doesn't trigger this.

Error Log:

Processing IssuesController#show (for 10.121.44.164 at 2011-01-19 23:21:51) [GET]
  Parameters: {"action":"show", "id":"88", "controller":"issues"}

Associated revisions
Revision 4735 - 2011-01-22 12:46 - Jean-Philippe Lang
Fixed: subtasks are deleted (not destroyed) when destroying parent issue (#7385).

Revision 4741 - 2011-01-22 14:28 - Jean-Philippe Lang
Moves relations fetching from views to the controller and skip invalid relations (#7385).

History
#1 - 2011-01-22 14:30 - Jean-Philippe Lang
- Status changed from New to Resolved
- Target version set to 1.1.1
- Resolution set to Fixed

The 500 error is fixed in r4741 which will be merged into 1.1-stable for 1.1.1.
The root problem that caused the relation not to be deleted is fixed in r4735.

#2 - 2011-01-30 07:09 - Jean-Philippe Lang
- Subject changed from Redmine crashes when viewing an issue which was related to a deleted issue (which had a parent task) to Error when viewing an issue which was related to a deleted subtask
- Status changed from Resolved to Closed

r4741 merged in 1.1-stable.
