Description The once implemented feature #949 is documented on Redmine's guide, therefore I consider this being a defect rather than a non-implemented feature. To summarize: this instruction ! {width:50px}attached_image.png! does not work, even though it's advertised in the Redmine guide here			
Related issues: Is duplicate of Redmine - Defect #949: Style not applied to wiki image Closed 2008-03-28
