Description
it would be great to have access to all enumerations via the REST API. Right now, at least from what I understood, I would have to get all issues and then hope that all Statuses/Resolutions are in there.

This is duplicate of one or some of the following;

- #4968
- #7180
- #7402

#5 - 2011-06-16 07:19 - Bevan Rudge

I meant #7819, not #7402.

- Priority changed from Normal to High

- Target version set to Candidate for next major release

As #7180, REST-blocking for instances which don't set a default Priority, etc.
