<b>Resolution:</b>	Invalid		
<b>Description</b>			
Just want Alias support in 1:1 NAT fields and Outbound NAT fields.			

History

#1 - 2011-01-22 01:54 - Dimitri Rodis

Chris Buechler:  
Aliases aren't supported in binat in pf.

Dimitri Rodis:  
Even if binat doesn't support them, they could theoretically be "resolved" via code prior to updating the rules.... in 2.1 :)

Ermal:  
You can put a feature request on redmine.pfsense.org so it does not get forgotten.

#2 - 2011-01-22 12:09 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Invalid
