

Redmine - Defect #7486

Possibility to uncheck all trackers in project which leads to impracticability creating new issue

2011-01-28 23:42 - Natalia Zolotukhina

Status:	Closed	Start date:	2011-01-28
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:		Affected version:	1.1.0
Resolution:	Wont fix		
Description When creating a new project it is possible to uncheck all check-boxes related to trackers (bug, feature, support) without any warning message. It leads to impossibility to create a new issue and can confuse user. Probably it would be better to validate the page that there is at least one selected tracker.			

History

#1 - 2015-11-13 06:59 - Go MAEDA

- Status changed from New to Closed
- Resolution set to Wont fix

We should be able to disable all trackers when we want to create a project only for grouping subprojects. Use cases are described in [#18571](#), [#8563](#) and [#4423](#).
