Description

In Ruby 1.8, a String is always just a collection of bytes.

in, app/models/journal_detail.rb

value[0..254]

does not trim 255 character.

I changed those like this.

value[/.{0,254}/m]

Is it suitable?

- My Ruby version : 1.8.6
- My redmine version : 1.1.0
- My database version : MySQL 5.0
