Description Hello, There is a great view in "my page" named "spent time". This is really practical to view day by day on what we worked on. For now, this view is only limited to the last 7 days. On the "spent view" frame, it should be really helpful to be able to configure the extent of the view (from \$date to \$date). So if we want to analyse a bit our spent time, we have the tool for doing it. Thank you, nm
