

Redmine - Defect #7533

Inline image alt-text fails due to wiki syntax

2011-02-03 17:19 - Ian Epperson

Status:	New	Start date:	2011-02-03
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Text formatting	Estimated time:	0.00 hour
Target version:		Affected version:	1.1.0
Resolution:			

Description

Using Redmine 1.1.0.stable.4702 (MySQL)

When an image is attached to a bug and the description contains a wiki link and the image is placed inline, the alt-text html code for the image is shown on resulting bug.

to recreate:

- Create a bug
- Upload an image to that bug with a #1 somewhere in the description.
- Edit the bug description to show the image inline: add

```
!image.png!
```

- View the bug

You will see that the #1 in the issue description is expanded in the alt text and mangles the html:

```
#1</a> of the set"
  alt="This is image <a href="/issues/1" class="issue status-6 priority-2 closed created-by-me ass
igned-to-me"
  title="Set up HTTPS access (Closed)">#1</a> of the set"
/>
```

New

History

#1 - 2011-02-03 17:58 - Etienne Massip

- Category set to Text formatting

Looks like it' a [RedCloth bug](#) fixed with 4.0.2.
