Redmine - Defect #7538

upgrade from 0.8.7 to 1.1.0 - now lots of template variables aren't replaced

2011-02-04 09:55 - Caspar MacRae

Status:	Closed		**Start date:**	2011-02-03
Priority:	Normal		**Due date:**

Category:			**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	

Description

Seeing things like this (project overview tab):

```
Bug: {{count}} open / {{total}}
Feature: {{count}} open / {{total}}
Support: 1 open / {{total}}
Task: 0 open / {{total}}
```

This appears throughout the app, the worrying thing is that we're unable to send notification emails, test email fails with:

```
An error occurred while sending mail ({{value}})
```

Setup details:

Using Redmine 1.1.0, with Postgres 8.4 on a Ubuntu x86_64 (VMWare) after generating an empty dB.

```
sudo RAILS_ENV=production script/about

./script/../config/../vendor/rails/railties/lib/rails/gem_dependency.rb:119:Warning: Gem::Dependen
cy#version_requirements is deprecated and will be removed on or after August 2010.  Use #requireme
nt

Database adapter          postgresql
Database schema version   20091205124427
```

Any advice gratefully received as I pushed this into production thinking this issue wasn't that serious and didn't test the email notification first   :-/

History

#1 - 2011-02-04 09:57 - Caspar MacRae

Damn, seems the "Duplicate" link doesn't mark the issue as a duplicate ... it copies the issue.

Perhaps "Clone" would be a better name?

#2 - 2011-02-04 10:04 - Etienne Massip

- Status changed from Resolved to Closed

- Resolution changed from Duplicate to Invalid

Duplicated [#7534](#) by mistake.
