

Redmine - Feature #7539

Rest-API limit of items not 100, but changeable by the administrator

2011-02-04 11:47 - Guido Schweizer

Resolution: Duplicate	
Description Instead of setting the limit to 100 hardcoded, the limit should be editable by the administrator. Since the return object does send the server-side-limit, clients could react to a server-side change of the limit value. In some cases the 100-limit causes a lot of calls to the api (server).
