<b>Target version:</b>	1.1.2		
<b>Description</b>			
app/models/mail_handler is useful but not extensibly from plugins. I think it would be useful if MailHandler were extensible by making a subclass based on it.			
I wrote the attached patch. This introduces MailHandler#dispatch_to_default which just calls receive_issue by default. Plugin can extend the dispatch table by overriding #dispatch_to_default.

History

#1 - 2011-02-12 11:08 - Jean-Baptiste Barth

- Status changed from New to Resolved
- Assignee set to Jean-Baptiste Barth
- Target version set to 1.1.2

If it makes plugin development easier, let's go. Don't hesitate to tell us if you have ideas about a real API (don't know if it's really needed though).

Applied in [r4820](#), thanks.

#2 - 2011-03-06 13:55 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Merged in 1.1-stable.

#3 - 2011-10-25 12:33 - Shane Proctor
