<b>Category:</b> Issues	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Resolution:</b>	
<b>Description</b> When adding issues to versions I expected the due date of the issue to match the due date of the version.  Here are some behaviors I thought would be nice: <ul style="list-style-type: none"><li>• If an issue without a due date is added to a version with a due date it gets that due date</li><li>• If a due date is changed on a version prompt to 'standardize' this due date for the rest of the issues</li><li>• If an issue due date is changed to after the version due date a warning is thrown(?)</li></ul> I was expecting similar interactions with due dates as related tickets have with percent done.
