| Description Hello, There is an issue with the time tracking thru commit : I found nowhere on the website the correct syntax, I had to search around ticket with a lot of different syntax but it is finally Marek Siller (#4155) which gave me the correct one. ref #123456 @2h30m Except that this will add a time tracking of only 2h00min. Then, is there any syntax for quotation or time log message? Wouldn't it be nice to add some syntaxes like @2h or @2h30 ? Also, the idea of Tomasz Sawicki was pretty good #4155#note-25 . Is there any chance it will be implemented? Best regards | | | |

Revision 4951 - 2011-02-26 15:46 - Jean-Philippe Lang

Fixes syntax for time logging in commit messages (#7630, #7718).

History

#1 - 2011-02-17 14:24 - Marek Siller

Hello,

there is an issue with the regular expression (file app/models/changeset.rb), that checks for the spent time. I'm currently investigating where the problem is exactly and how to fix it. I'll post a patch as soon as I find the problem.

Sincerely,
Marek Siller

#2 - 2011-02-26 15:48 - Jean-Philippe Lang

- Tracker changed from Feature to Defect
- Subject changed from spent time on commit to Spent time in commits not recognized
- Status changed from New to Resolved
- Target version set to 1.1.2
- Resolution set to Fixed

Syntax is fixed in [r4951](#). @2h or @2h30 are now supported

#3 - 2011-03-06 13:46 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Merged in 1.1-stable.

#4 - 2011-03-28 13:12 - Ho Tak

Hello,

I have just setup the redmine, and in the administration -> settings -> Repositories, I tick the Enable time login.
But still, in the commit message, I have trying writing

refs [#4](#) @2h

OR

refs [#4](#) @2h30m

OR

refs [#4 2 2](#)

OR

refs [#4](#) @2.5

They all couldn't work, anything I still need to configure to make it work?

By the way, I am using gitolite, and the "refs [#4](#)" thing is successfully hook to the correct issue/project in redmine, I don't know wether this will help found out the problem.

Thanks a lot.

Tak.

Sorry for missing the redmine version, I am using Redmine 1.1.2.stable

Thanks.

Tak.

[Ho Tak](http://www.redmine.org/boards/2/topics/22692?t=23334#message-23334), this advice should solve your problem: <http://www.redmine.org/boards/2/topics/22692?t=23334#message-23334>

Maciej ;)

Yes! This works!!!

I had discovered that I haven't change "Activity for logged time" to any one of them, stupid me.....

Thanks Maciej! ^^
