

Redmine - Patch #7647

Adding a hook in the heading on showing an issue

2011-02-18 05:55 - Yuki Sonoda

<b>Target version:</b>			
<b>Description</b>			
<p>The heading (h2) in /issue/show is a good place to show something related with the identity of the issue, as <a href="http://redmine.ruby-lang.org/issues/show/1">http://redmine.ruby-lang.org/issues/show/1</a>.</p> <p>Could you add an hook point here? I would like to use the hook for the MailingListIntegration plugin which I am developing. I think it is useful for integrating redmine with an external system which posts an issue.</p>

Revision 5447 - 2011-04-12 21:53 - Jean-Philippe Lang

Adds a helper for issue heading (#7647).

History

#1 - 2011-02-22 21:53 - Jean-Baptiste Barth

I'd prefer putting this heading in a helper you could override, it would be much more flexible. What do you think ? Any opinion about this ?

#2 - 2011-02-23 14:16 - Yuki Sonoda

It sounds good.

#3 - 2011-04-12 21:56 - Jean-Philippe Lang

- Status changed from New to Closed

Jean-Baptiste's solution committed in [r5447](#). IssueHelper#issue\_heading is now used and can be overridden.
