Redmine - Defect #7648
Git: Repository Statistics Incorrect

2011-02-18 07:43 - Spenser Gilliland

Status:	New	**Start date:**	2011-02-18
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	SCM	**Estimated time:**	0.00 hour
Target version:			
Resolution:		**Affected version:**	1.1.1

Description

I'm using a git repo with redmine and noticed that my very new repository is claiming to have over 5000 commits by me (I haven't commited more than 4 times.)

A screen shot is attached.

My theory is something to do with non-sequential commit numbers in git.

I'm running the svn version of the stable1.1 branch.
