Resolution:	No feedback		**Affected version:**	1.1.0

Description

OS: MacOS 10.6.6
Browser(s): Safari 5.0.3, Chrome 9.0.597.102, FireFox 3.0.19
Redmine: 1.1.0.devel (PostgreSQL) running on Ubuntu 10.04 LTS

I can add blocks and rearrange blocks but there appears to be no way to remove a block that has been added.

Don't you see a X icon at the upper-right corner of each block in MyPage->Personalize?

#2 - 2011-02-23 18:42 - Eric DeWitt

No, on all the browsers I mentioned there is no "X" in the upper-right corner of the blocks. There does appear to be a difference in the hover behavior, as the cursor changes from the 'move' cursor to a normal arrow. However, even with no icon there, clicking does not remove the block. (It also appears that the hover behavior changes in the same way in the upper-left corner, also with no icon.)
