History

#1 - 2011-02-23 21:37 - Alex Bevilacqua

NOTE I have a hardcoded style in the above that shouldn't be there (style="font-size: 10px") ...

#2 - 2011-02-23 21:40 - Alex Bevilacqua

NOTE 2 Oops, I left the :action => 'settings' option in there ... it should actually be link\_to\_project(project, {}, ..., not link\_to\_project(project, {:action => 'settings'}, ...
