

Redmine - Defect #7729

User with only issue view and add note ermission can change issue status

2011-02-26 20:05 - Etienne Massip

Status:	Closed	Start date:	2011-02-26
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues permissions	Estimated time:	0.00 hour
Target version:		Affected version:	1.1.1
Resolution:	Duplicate		
<b>Description</b> As reported by Lee Hugues in the forum (see <a href="#">RE: Edit Issues Permission / Change Issue Properties</a> ), someone which role allows him only for viewing issue and adding note will still be able to change properties status, assignee, % done and target version.  It requires also that a workflow is defined for the role.

History

#1 - 2011-02-26 20:05 - Etienne Massip

- Affected version (unused) set to 1.1.1
- Affected version set to 1.1.1

#2 - 2011-02-27 22:47 - Jean-Philippe Lang

AFAIK, this is how it works since the very first versions of Redmine. A user allowed to change the status of an issue is allowed to update these properties as well.

#3 - 2011-02-27 23:07 - Etienne Massip

- Target version deleted (Candidate for next minor release)

Why these (except Status) ?

#4 - 2011-02-28 17:58 - Jean-Philippe Lang

More a consensus than a particular reason. Changing the status generally means that some work was done on the issue and that progress, assignee... may be changed.  
  
I know that it's not a perfect solution. Would be much better with permissions per attribute.

#5 - 2011-03-03 16:02 - Etienne Massip

- Status changed from New to Closed
- Resolution set to Duplicate

Closed as duplicate of [#1919](#).
