<b>Category:</b>	Projects	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Description</b> In revision 1055, i think you forgot the following : When doing a bulk edit on issues of a subproject, you can't assign a fixed_version of the parent project. To do that, you should replace in /app/views/issues/bulk_edit.rhtml @project.versions by : @project.assignable_versions			
<b>Related issues:</b> Is duplicate of Redmine - Feature #465: Inheritance of Versions to Subprojects <b>Closed</b>			

History
