These URL were changed and those you mention are wrong.
They now should be: /projects/ourproject/time_entries and /projects/ourproject/time_entries/report

Where do you see links pointing to these URL? Please be as specific as possible.
And make sure you don't have any plugin that overrides the view containing the wrong link.

- Status changed from New to Resolved
- % Done changed from 0 to 100

The bug was caused by projects tree view plugin, which overrides views. I fixed the plugin code and now the links works again.
