

Redmine - Patch #776

sort the journal of issues desc instead of asc

2008-03-03 16:36 - Charles-Marie DE GRAEVE

Target version:			
<b>Description</b> When displaying the journal of an issue, it is more pretty to have the last modifications first, instead of scrolling down the whole page. Here is a simple modification to do :  <pre>diff -Naur trunk_6.3/app/controllers/issues_controller.rb eads_ver/app/controllers/issues_controller.rb --- trunk_6.3/app/controllers/issues_controller.rb      2007-12-18 19:17:40.000000000 +0100 +++ eads_ver/app/controllers/issues_controller.rb      2008-03-03 13:51:20.000000000 +0100 @@ -81,7 +81,7 @@    def show     @custom_values = @issue.custom_values.find(:all, :include =&gt; :custom_field, :order =&gt; "#{CustomField.table_name}.position")     - @journals = @issue.journals.find(:all, :include =&gt; [:user, :details], :order =&gt; "#{Journal.table_name}.created_on ASC")     + @journals = @issue.journals.find(:all, :include =&gt; [:user, :details], :order =&gt; "#{Journal.table_name}.created_on DESC")     @status_options = @issue.status.find_new_statuses_allowed_to(User.current.role_for_project(@project), @issue.tracker)     respond_to do  format        format.html { render :template =&gt; 'issues/show.rhtml' }</pre>

Revision 1197 - 2008-03-05 16:41 - Jean-Philippe Lang

Add a user preference to choose how comments/replies are displayed: in chronological or reverse chronological order (#589, #776).

History

#1 - 2008-03-03 20:22 - John Goerzen

I'm not sure I agree with that. I like having it with everything in chronological order. debugs (the Debian BTS), RT, Trac all do it that way. If it's changed, perhaps it should be a configurable option instead of a hardcoded setting.

#2 - 2008-03-04 00:47 - Eric Davis

I agree with John, the journals should stay in ASC order. Otherwise you would have to read upwards to follow the train of thought.

-1

#3 - 2008-03-04 10:09 - Thomas Lecavelier

My preference is for ASC order too. But it's a preference, a user preference :) This should be a feature request that enable user to configure journal order sorting.

#4 - 2008-03-05 16:44 - Jean-Philippe Lang

- Status changed from New to Closed

User preference added in [r1197](#) to choose between chronologic or reverse chronologic order.  
Default is still chronological order (ASC).
