Category:			**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	1.1.1

Description

I tried to change my email notification settings on My account page.
I set 'No events'. I expected I didn't receive any updates about issues.
But email notifications are received if someone add me as watcher.
I didn't found any explanations about this behavior of Redmine.

So I suppose this is a possible bug.

History
