Redmine - Defect #7766

Author lost when issue is duplicated

2011-03-03 15:01 - Alexis U.

Status:	Closed		**Start date:**	2011-03-03
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Issues		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	1.1.1

Description

When duplicating an issue, both the issue being duplicated and the new copy belong to the current user. The author of the source issue is lost.

If the user X creates the issue A, and then the user Y duplicates it as issue B, both issue A and B have now Y as author.

History

#1 - 2011-03-03 15:14 - Etienne Massip

- Category changed from Issues workflow to Issues

Well, this makes sense since your are the real author of the new issue ?!

#2 - 2011-03-03 15:45 - Alexis U.

With the same example as before, X should still be the author of the issue A, and Y only the author of issue B.

#3 - 2011-03-03 15:54 - Etienne Massip

Ok, sorry, read too quickly.

But can't reproduce.

Do you use plugins / patches ?

#4 - 2011-03-03 16:02 - Alexis U.

Actually, yes, I am using these two plugins:
Redmine Close Button plugin (v 0.0.3)
Redmine Theme Changer plugin (v 0.0.2)

#5 - 2011-03-03 16:25 - Alexis U.

Hum, I can't reproduce it either, with or without the plugins.

Something must have been wrong with my way of testing.

Thank you, and sorry for the time lost.

#6 - 2011-03-03 16:38 - Etienne Massip

- Status changed from New to Closed

- Resolution set to Invalid

No problem.

Reopen this issue if ever you can reproduce the bug.
