It would be great to embed external forms like google forms in Redmine.
Something like below:

```
<iframe src="https://spreadsheets.google.com/>Loading...</iframe>
```

#2 - 2011-03-10 09:22 - Etienne Massip

You should write a macro to do such thing.

#3 - 2013-04-12 02:23 - Filou Centrinov

Create a [html macro](#) and insert it in lib/redmine/text_formatting/macros.rb.
