### Description

This issue follows the thread [RE: Big fonts for project names ... how to make them smaller](#) .

Now the project title is in 'h1' and as consequence it is too big (look at "Deep in hierarchy" in the picture uploaded in the above forum thread).

It would be nice this to have its class in css so as one to be able to tune it as he/she finds it appropriate.

The method generating the projects titles is [source:/trunk/app/helpers/application_helper.rb#L396](#) and the line that adds the title of the selected project is [source:/trunk/app/helpers/application_helper.rb#L411](#) (I suppose so.).

## History

#### #1 - 2011-04-08 08:55 - Etienne Massip

*- Target version set to Candidate for next major release*

#### #2 - 2011-04-08 08:56 - Etienne Massip

There are some shots in [#8097](#).

#### #3 - 2013-02-02 13:24 - Ivan Cenov

*- Status changed from New to Resolved*

I edited my theme and also made project names shorter so this is not issue for me. If no one else is is interested, please close this issue.

#### #4 - 2018-01-10 13:36 - Go MAEDA

*- Status changed from Resolved to Closed*

*- Target version deleted (Candidate for next major release)*

*- Resolution set to Fixed*

Project name in the header has "current-project" class since [r15256](#) (Redmine 3.3.0).
