

Redmine - Defect #7856

Change "Update" to "Update/Reply" on issue#show

2011-03-14 13:09 - Dmitry Babenko

Status:	Closed	Start date:	2011-03-14
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Fixed		
Description Issue#show page has "Update" link which is very confusing. A lot of our new Redmine users haven't been able to discover how to post a note or reply. Somebody have used "Quote", instead of "Update". But this is not the case because there is no need to quote always and also this link is not visible if description is empty. So, the easiest way, I think, is to rename "Update" link to "Update/Reply" or "Update or Reply".

you can do that yourself on your local install, by editing config/locales/en.yml

Yes, I know, thanks. But I think we are not alone who experience this problem and it should be solved for the project in general.

And by the way, the translation key button_update also used in some other places e.g. in repository#committers. So, it is not the best way just to change its value.

#4 - 2014-12-03 13:56 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Fixed

The link text was renamed "Update" to "Edit" in [r12285](#).
Closing.
