

Redmine - Defect #7920

Attempted to update a stale object when copying a project

2011-03-18 14:46 - Luis Serrano Aranda

Status:	Closed	Start date:	2011-03-18
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Projects	Estimated time:	0.00 hour
Target version:	1.4.0	Affected version:	
Resolution:	Fixed		
Description			
When I try to copy a project 80 tasks, subtasks and relations, versions, Redmine returns this message:			
ActiveRecord::StaleObjectError in ProjectsController#copy			
Attempted to update a stale object			
RAILS_ROOT: /var/www/redmine

If I use the same database with aptana and with the debugger and I try to copy the same project redmine don't returns any error...

I think it

Associated revisions

Revision 5283 - 2011-04-01 18:26 - Jean-Philippe Lang

Fixed: bulk destroying parent and child issues raises a stale object error (#7920).

Revision 5285 - 2011-04-01 20:42 - Jean-Philippe Lang

Fixed: deleting a parent issue may lead to a stale object error (#7920).

Revision 8864 - 2012-02-12 20:41 - Jean-Philippe Lang

Prevent ActiveRecord::StaleObjectError in Issue#reschedule_after (#7920).

Revision 12685 - 2014-01-21 07:51 - Toshi MARUYAMA

graft r5285 to awesome_nested_set 2.1.5 (#7920)

Revision 12689 - 2014-01-21 08:55 - Toshi MARUYAMA

graft r5285 to awesome_nested_set 2.1.6 (#7920)

Revision 12733 - 2014-01-27 07:47 - Toshi MARUYAMA

move r12689 awesome_nested_set modification to config/initializers/10-patches.rb (#7920)

History

#1 - 2011-03-18 14:47 - Luis Serrano Aranda

I think its a problems of locks and velocity... with aptana redmine works more slow...

Could that be this?

Thanks

#2 - 2011-03-20 22:21 - Jean-Philippe Lang

The method that triggers your error (`#reschedule_after_without_earlier_date`) is not defined in Redmine core.

#3 - 2011-03-21 08:44 - Luis Serrano Aranda

It's true but without this plugin (`better_gantt`) redmine also fails

ActiveRecord::StaleObjectError in ProjectsController#copy

Attempted to update a stale object

#4 - 2011-03-21 09:49 - Etienne Massip

So much plugins, did you try with no plugin at all ?

#5 - 2011-03-23 14:11 - Luis Serrano Aranda

Without plugins and a clean installation, redmine return this

ActiveRecord::StaleObjectError in ProjectsController#copy

Attempted to update a stale object

RAILS_ROOT: /home/lserrano/redmine-dev1

```

#6 - 2011-03-23 15:05 - Luis Serrano Aranda

The problem is in the function `def reschedule_after(date)`

#7 - 2011-03-23 15:20 - Luis Serrano Aranda

The problem is in the save method...

```
def reschedule_after(date)  
  return if date.nil?  
  if leaf?  
    if start_date.nil? || start_date < date  
      self.start_date, self.due_date = date, date + duration  
    # save  
    end  
  else  
    leaves.each do |leaf|  
      leaf.reschedule_after(date)  
    end  
  end  
end  
end
```

#8 - 2011-03-23 15:31 - Etienne Massip

Try replacing `self.due_date = date` with `self.due_date = date.dup`

#9 - 2011-03-23 15:59 - Luis Serrano Aranda

I have try it

```
if start_date.nil? || start_date < date  
  self.start_date, self.due_date = date.dup, date + duration  
  save  
end
```

but not fails

#10 - 2011-03-23 22:48 - Etienne Massip

Make sure you don't have some circular dependencies with issue relations, that is :

issue1 -> issue2 -> issue1

#11 - 2011-04-01 11:44 - Etienne Massip

- Target version set to Candidate for next minor release

Just hit a very similar issue :

1. following scenario of note 10 in [#6320](#), I got : issue 380 parent of 379 and 381
2. in the issue list, select all the 3 issues and right-click to delete all the 3

Bang !

```
Processing IssuesController#destroy (for 10.132.21.161 at 2011-04-01 11:32:03) [POST]  
Parameters: {"back_url"=>"/projects/psmtxa/issues", "ids"=>["381", "380", "379"], "action"=>"destroy", "authenticity_token"=>"gGV5wcWHWc+93sHWkfbR79eCHaDFVroRiBo/Rwcl7A=", "controller"=>"issues"}
```

```
ActiveRecord::StaleObjectError (Attempted to delete a stale object: Issue):  
(eval):4:in `destroy_without_callbacks'  
app/controllers/issues_controller.rb:239:in `each'  
app/controllers/issues_controller.rb:239:in `destroy'  
config/initializers/mongrel.rb:62:in `dispatch_cgi'
```

Actually, only the 381 has been deleted.

#12 - 2011-04-01 11:50 - Etienne Massip

In my case, the issue is that you can't destroy a parent issue, period.

#13 - 2011-04-01 18:28 - Jean-Philippe Lang

Bang !

Fixed in [r5283](#).

#14 - 2011-04-01 19:32 - Jean-Philippe Lang

Actually, not totally fixed.

#15 - 2011-04-01 20:43 - Jean-Philippe Lang

Finally fixed the error that may occur on deletion in [r5285](#).

#16 - 2011-05-26 09:00 - Luis Serrano Aranda

Even I have the same error and have made modifications [r5283](#) and [r5285](#)

#17 - 2011-05-26 09:24 - Luis Serrano Aranda

More news...

I need a copy of this project to use as a template, for error left the project start date in the template, if I delete that date (it is not no date) gives me no error when copying....

I deleted the changes ([r5283](#) and [r5285](#)) and still works.

Leave patches or delete?

Thanks

#18 - 2012-02-12 20:43 - Jean-Philippe Lang

- *Subject changed from Attempted to update a stale object to Attempted to update a stale object when copying a project*
- *Status changed from New to Resolved*
- *Assignee set to Jean-Philippe Lang*
- *Target version changed from Candidate for next minor release to 1.4.0*
- *Resolution set to Fixed*

I couldn't reproduce but the error on #reschedule_after should be fixed by [r8864](#).

#19 - 2012-03-17 13:22 - Jean-Philippe Lang

- *Status changed from Resolved to Closed*
