Description Hello, I have just set up the Web RedMine application with CentOS. Everything is installed and everything works very well. I have nevertheless one concerns on the display of the issues. I would like modify their presentation. The order of display of fields, their arrangement, groupings... After numerous researches, I was not able to find of Forum or help(assistant) to this subject. Could you help me or guide me? Thank you in advance

Maybe you could try using css / themes (see wiki).

But, still, you have to post your questions in forum, not in tracker ! Tracker is for bugs and feature requests only.

Ok, sorry
Thanks for your help
