Redmine - Defect #795

html svn log not escaped

2008-03-06 11:51 - Luca Pireddu

Status:	Closed	**Start date:**	2008-03-06
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	UI	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Fixed	**Affected version:**	

Description

When HTML is included in the text of an svn log entry the tag is not escaped before being displayed. For example, with the log entry "now in-place edit works for other <input> types as well." The redmine page contains an input text field instead of "<input>"

The bug manifests itself at least on the pages:

- /repositories/show/ (Latest revisions section)
- /repositories/revision/
- /repositories/revisions/
- /repositories/changes/

Associated revisions

Revision 1216 - 2008-03-09 12:47 - Jean-Philippe Lang

Textile formatting:

- escape html tags, except pre tags (#807, #795)
- try to avoid unwanted quick phrase modifiers

History

#1 - 2008-03-09 14:10 - Jean-Philippe Lang

- Category set to UI

- Status changed from New to Closed

- Resolution set to Fixed

Fixed in r1216 (only pre tags are not escaped since they're used to enter preformatted text).
