<b>Description</b>			
<p>Hello,</p> <p>I've downloaded the newest redmine version from github and installed it on my server. I followed all steps described at your week, but after the installation we perceived that all wiki tags stored on our pages was not working. The system is not parsing the wiki tags to show the correct display. I'm attaching a sample screenshot to show what I'm saying.</p> <p>Thanks so much!</p>
