

Redmine - Defect #8031

Internal Error when Using Rekonq When Updating An Issue

2011-03-31 12:53 - Carlo Camerino

Status:	Closed	Start date:	2011-03-31
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	1.1.2
Resolution:	Invalid		

Description

Hi,

i always get an internal error when updating a redmine issue using rekonq 0.6.1 on kde 4.
i'm using kde 4.6.1 - linux mint 10

```
Thu Mar 31 18:24:36 +0800 2011: HTTP parse error, malformed request (127.0.0.1): #<Mongrel::HttpParserError: Invalid HTTP format, parsing fails.>
```

```
Thu Mar 31 18:24:36 +0800 2011: REQUEST DATA: "sdf\r\n"
```

```
PARAMS: {}
```

```
Thu Mar 31 18:31:27 +0800 2011: HTTP parse error, malformed request (127.0.0.1): #<Mongrel::HttpParserError: Invalid HTTP format, parsing fails.>
```

```
Thu Mar 31 18:31:27 +0800 2011: REQUEST DATA: "sdf\r\n"
```

```
PARAMS: {}
```

```
Thu Mar 31 18:39:06 +0800 2011: HTTP parse error, malformed request (192.168.2.3): #<Mongrel::HttpParserError: Invalid HTTP format, parsing fails.>
```

```

```

```
PARAMS: {}
```

```
Thu Mar 31 18:48:39 +0800 2011: HTTP parse error, malformed request (192.168.1.27): #<Mongrel::HttpParserError: Invalid HTTP format, parsing fails.>
```

```
Thu Mar 31 18:48:39 +0800 2011: REQUEST DATA: "\377\377"
```

```
PARAMS: {}
```

tell me if i need to specify anything else

History

#1 - 2011-03-31 14:44 - Etienne Massip

Must be a Rekonq issue, could you try with latest stable 0.6.95 ?

#2 - 2011-04-03 18:10 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Invalid

The error is raised by Mongrel. So this is either a mongrel or rekonq issue.
