Links ending with curly brackets are not correctly interpreted:

Example:

http://www.abc.com/viewdetails.aspx?reqid={88991511-FC0F-4923-AF00-5289367A596A}

or

http://www.abc.com/viewdetails.aspx?reqid={88991511-FC0F-4923-AF00-5289367A596A}&abc=1

Notice that this problem only occurs if the link is ending with a curly bracket, not if the curly bracket is in the middle of the link:

http://www.abc.com/viewdetails.aspx?reqid={88991511-FC0F-4923-AF00-5289367A596A}&abc=1

For me it seems to be a "RedCloth issue", because it's also not working like this: Link

Supported in RedCloth 4. More about RedCloth 4: #6269
