

## Redmine - Feature #8063

### optionally suppress redundant display information on issue listings

2011-04-04 16:37 - Gerry Hawkins

<b>Status:</b> New	<b>Start date:</b> 2011-04-04
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b> Issues	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Resolution:</b>	
<b>Description</b> (using 1.0.4 until 1.2.0 is out)  A work flow I find myself using a lot when listing issues is having to go into the options list and remove the criteria that I am filtering by from being displayed. Similarly if I am grouping by a certain criteria I usually do not want it to be on each line. I don't think you would want to do this automatically. And if the filter is a multi-select you wouldn't want it not displayed on the per issue line.  e.g. If I limit the issues to a single target version I do not need that target version to be displayed all the time. It usually takes up too much line space.  If I group the results by issue status I do not need to see the status on each issue listed.  Having an optional, easy way to suppress filter and/or grouping conditions from the display would be a good thing to reduce the duplication of information presented.  Thanks

If I filter an all issues with any field being set to "none" its is annoying that especially that field is needed as view column.
