

Redmine - Defect #8064

Text custom fields do not wrap on the issue list

2011-04-05 06:11 - Pierce Morton

Status:	Closed	Start date:	2011-04-05
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:	1.2.0	Affected version:	
Resolution:	Fixed		
Description			
<p>In issue listings, Subject lines have a special wrap applied to them. This allows long title lines to wrap and not extend the table out. However, freetext custom fields lack this when used as a column in an issue listing. Freetext fields with long content will stretch the entire listing horizontally, hiding content from view.</p> <pre>About your application's environment Ruby version 1.8.7 (i386-mingw32) RubyGems version 1.3.7 Rack version 1.0 Rails version 2.3.5 Active Record version 2.3.5 Active Resource version 2.3.5 Action Mailer version 2.3.5 Active Support version 2.3.5 Application root c:/redmine_entchan Environment production Database adapter mysql Database schema version 20100819172912</pre>			

Associated revisions

Revision 5332 - 2011-04-06 00:18 - Jean-Philippe Lang

Wrap text custom fields in the issue list (#8064).

History

#1 - 2011-04-05 06:13 - Pierce Morton

Also note that this cannot be seen in IE, due to a bug in that browser preventing the nowrap property being inherited in the first place.

#2 - 2011-04-06 00:19 - Jean-Philippe Lang

- Category changed from Custom fields to UI
- Status changed from New to Closed
- Target version set to 1.2.0
- Resolution set to Fixed

Fixed in [r5332](#).

#3 - 2011-04-06 00:20 - Jean-Philippe Lang

- Subject changed from Issue lines fail to include wrap property on custom field TDs, inducing massive page stretch to Text custom fields do not wrap on the issue list
