<b>Description</b> For example, redmine.org issue <a href="#">#8009</a> is in the category "Email receiving" and its title contains "e-mail".  When searching for "created by Email" in the top-right search box, this issue <b>is not found</b> , see <a href="http://www.redmine.org/search/index/redmine?issues=1&amp;q=created+by+Email">http://www.redmine.org/search/index/redmine?issues=1&amp;q=created+by+Email</a> .  I think it should be found, because the category contains the word "Email".
