History

#1 - 2011-04-06 16:32 - Ebrahim Mohammadi

- File redmine-colorful-indentation-on-right-for-rtl-locales.diff added

The attached patch should fix it.

#2 - 2011-04-08 13:14 - Ebrahim Mohammadi

Provided patch doesn't fix the issue completely. There are still problems with margins and multi-level project hierarchies.

#3 - 2011-04-09 09:56 - Ebrahim Mohammadi

- File redmine-rtl-projects-view-css.diff added

New patch fixes the colorful indentation as well as "my projects" mark (star) placement for RTL locales, which is currently on left while should be on right.

#4 - 2011-04-09 16:16 - Etienne Massip

- Target version set to Candidate for next minor release

#5 - 2011-04-10 08:54 - Ebrahim Mohammadi

- File redmine-css-rtl-hierarchies-fixes.diff added

The new patch (redmine-css-rtl-hierarchies-fixes.diff) fixes these for RTL locales:

- Colored indentation of projects view
- Positioning of "my project" icon (start) in projects view
- Positioning of icons in administration page
- Positioning of OpenID icon in URL input field
- Hierarchy view of projects in /admin/projects
- Hierarchy view of subtasks

#6 - 2011-04-10 10:35 - Ebrahim Mohammadi

- File redmine-rtl-css-fixes-3.diff added

And this new one adds another fix: hierarchy of Wiki TOC items.
I guess title of the issue should be changed.

#7 - 2011-04-30 12:16 - Toshi MARUYAMA

- Status changed from New to Closed

- Target version changed from Candidate for next minor release to 1.2.0

- Resolution set to Fixed

Ebrahim, I pulled your bitbucket mercurial repository, and transplanted revisions and pushed to Redmine subversion repository.
Thanks.
