

Redmine - Defect #8091

LDAP Authentificaton doesn't verify certificate validity

2011-04-07 04:13 - steven Mr

Status:	Closed	Start date:	2011-04-05
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	LDAP	Estimated time:	0.00 hour
Target version:		Affected version:	1.1.2
Resolution:	Duplicate		
Description Security-Bug: LDAP Authentificaton doesn't verify certificate validity of the LDAP-server-certificate. Connection to the LDAP-Server with LDAPS is established, even if the server name in the certitfcate doesn't match or the certificate authority is not trustful. Solution: If something is wrong with the certificate, or the certificate authority is not trustful, the connection to the LDAP-Server should be closed and any LDAP-Login should be disabled.			
Related issues: Is duplicate of Redmine - Defect #8068: LDAP Authentificaton doesn't verify c... <div>Closed2011-04-05</div>
