

## Redmine - Feature #8134

### Restrict edit issue possibilities per role

<b>Description</b> <p>Now you can only determine if they can edit issues or not. When they are allowed, they can also click the 'more' link in next to the fieldset legend. That gives them the opportunity to change the tracker/title/description of the issue. When I disable the 'edit issue' rights, they cannot edit the status, priority or assignee anymore. I want my clients to be able to change the assignee, status and priority but not title, description and tracker.</p> <p>A nice feature to solve this problem, would be to refine the permissions of roles in to smaller parts (eg edit issue title, edit issue priority etc.)</p> <p>Anyone else with the same request?</p>

- Status changed from New to Closed

- Resolution set to Duplicate

Same as [#3521](#) implemented for 2.1.0.
