

Redmine - Feature #8152

Render Version and User custom fields as links

2011-04-14 16:17 - Etienne Massip

Status:	Closed	Start date:	2011-04-14
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Custom fields	Estimated time:	0.00 hour
Target version:	2.5.0		
Resolution:	Fixed		
Description			
That would be nice if custom fields which type is one of the recently introduced Version and User are rendered not as raw text but as links to the specified version page or user profile page, just as anywhere else in the application.

As suggested in #2096 =)

#2 - 2011-06-01 19:30 - Etienne Massip

There is a patch attached to #8492.

- File *issues_helper.rb.patch* added

Hi, Please find patch attached.

#4 - 2013-11-16 10:26 - Jean-Philippe Lang

- Target version changed from Candidate for next major release to 2.5.0

#5 - 2013-12-11 15:11 - Dipan Mehta

+1. This is really essential feature. However, the same should be applied not only for issue page, but also on version's page and project page - as we have user_type fields for projects (incharge, etc.) and version (testing etc.).

I had tried working out a patch where format_value() function itself returns the link thereby one doesn't have to repeat the conditionals on each such entity (issue/version/page). Unfortunately, it didn't quite work because of h() function being used before display.

Anyway, I hope this should be available at least for version and project page as well.

#6 - 2013-12-22 15:16 - Jean-Philippe Lang

- *Status changed from New to Closed*

- *Resolution set to Fixed*

Done in 2.5.0, not just for issues.
